

# General Post Office

## Expression of Interest

Murree's historic and iconic General Post Office (GPO) building was built by the British in 1867, and has stood at the start of Murree's Mall Road for almost 150 years. The building has undergone numerous interventions over time, including a façade modernisation in 1970 that destroyed its original historic character.

The Urban Unit, as PMU for this project, has successfully completed the restoration and reconstruction of the building, revitalising an icon of one of Pakistan's most visited locations.

Given the building's significance to Murree and the surrounding areas, in particular as a heritage site, the PMU is converting parts of the interior into public spaces. To this end, we are calling for EOIs for a café in a designated location on the ground floor of the building. With the high volume of visitors the café is expected to receive, and the high profile character of the project, participation is requested from companies in the restaurant industry with strong brand recognition and professionally run operations.

*The deadline for submission of EOI documents is 11:00 A.M, August 19, 2015
